

ONSITE TEACHING AND TRANSPORT UPDATES

23rd APRIL 2024

Dear Parents,

The school will follow the onsite method of teaching for the **24th and 25th of April**.

Parents are urged to send students to school if the areas are clear of water and it is safe for students to travel.

All buses will ply tomorrow to the areas as designated. However, the driver may not be able to reach the by-lanes if there is water. He will then inform the student/ parents concerned.

The onsite lessons today did not include any new topic. The synopsis of today's work will be uploaded latest by evening.
